Fiesta Metallic Art Snow White

Fine Grain and Big Grain / Quick application guide

Illustrative concept; actual colour and finish may vary.

GRAIN OPTIONS

Fine Grain
Smaller grain texture

Big Grain
Larger grain texture

PACK SIZE & APPROXIMATE COVERAGE

- **1 kg | approx. 4.8-5.6 m²**
- **2.5 kg | approx. 12-14 m²**

One coat. Approximate coverage; actual use may vary.

TOOLS & MATERIALS

Astar Primer, roller, brush, Fiesta Metallic Art and a Spalter brush.

APPLICATION METHOD

1. Apply Astar Primer with a roller and brush before Fiesta.
2. Use a Spalter brush to apply Fiesta in diagonal strokes or a criss-cross pattern.
3. Work an area of about 1 m² at a time. Once covered, move the material into the desired pattern.
4. Further sponging can be used to enhance the pattern.

DRYING

Approximately dry after 2 hours. This is an approximate guide, not a guaranteed drying time.

OPTIONAL PROTECTION

For further protection, finish with Polyvine varnish in Matt, Satin or Gloss. Varnish is optional.

TECHNICAL NOTE

Refer to the current Decomin technical data sheet for surface preparation, substrate suitability and application conditions not listed here.
